Australia.

22nd May 2002

Dear Peter

NC 33724 (Digital Camera)

Thank you for your e-mail of 21st May 2002 addressed to Pat Tye concerning the above-mentioned patent filing. Please note that I have now taken over responsibility for this case.

With regard to your query regarding the inventor's award, this is given to an inventor who has been involved with the preparation of the patent specification which was filed. It appears from my file that you had left the company before a first draft of the patent specification was received from the external attorneys and I assume in this case, you were not involved in the preparation of the specification. Please let me know if this is not the case.

I will in due course need to independently consider whether the patent specification as filed adequately covers the invention. Obviously, this would be best achieved if you were able to provide some assistance and in this case Nokia should be able to provide some remuneration.

Accordingly please review the specification and let me have your comments. I will then contact you, probably by e-mail, to discuss how best to proceed. Please note that the patent specification has been sent to you in strictest confidence and therefore the contents of the patent specification and your invention should not be disclosed to anyone.

Yours sincerely

DR. SAIFUL KHAN
IPR Counsel
